SUMMARY

I am a Data Science undergraduate of Cardiff Metropolitan University, Wales, UK with a practical, problem-solving approach to data. Instead of just writing code, I focus on how data can be used to solve real business problems. I have a solid foundation in Python and SQL, and I have built hands-on projects ranging from machine learning applications to automated web scraping pipelines. I am also deeply proficient with modern AI tools and large language models including; Claude, Codex, Kimi, Qwen, and DeepSeek and I regularly work with local and open-source models for privacy-sensitive or cost-efficient workflows. I use AI not just for acceleration, but for vibe coding and rapidly prototyping complex, full-stack applications that would traditionally take far longer to build. I leverage these tools extensively for data science tasks as well, from automated feature engineering and exploration data analysis to generating and refining ML pipelines. I am comfortable integrating AI into every stage of my workflow to move from idea to execution quickly. By now I have completed my degree course and am waiting for the results. I am eager to join a fast-paced team where I can keep learning, take on fresh challenges, and make a real impact.

PROJECTS

Vision Agri AI

March 2026

- Developed a machine learning application for agriculture disease detection with disease overlay on the images using PlantVillage dataset.
- Prediction accuracy: Achieved 95% validation accuracy during training. > 80% for unseen images.
- Detects Tomato YLCV, Healthy, Pepper Bacterial Spot, Healthy. The pipeline rejects untrained categories such as Potato, Apple, etc.
- Containerized the FastAPI backend and hosted in a DigitalOcean Docker Droplet. Front-end is hosted in GitHub Pages.
- Project is publicly available at visionagri.app

SmartLiving IoT System

October 2024

- Developed an Arduino based smart home automation system with an Android mobile application for remote monitoring and control.
- Implemented real time device control including door operation and lighting through the mobile app interface.
- Integrated gas leak detection and rain sensors to improve household safety and environmental awareness, with instant mobile notifications for critical events.
- Designed a multi-user management system where the owner can register accounts and assign sub-users with restricted permissions.
- Built the Android application with user authentication, device control dashboard, and alert system to manage the home automation hardware.

Vehicle Ad Watcher

January 2026

- Developed an automated vehicle listing monitoring system for Riyasewana to track newly posted ads based on user-defined criteria.
- Implemented a Python-based scraping pipeline that periodically scans search results and identifies newly published listings in real time.
- Built filtering logic to detect vehicles by model, price range, year, and location, while ignoring previously processed advertisements.
- Integrated instant notifications through a Telegram bot using the Telegram Bot API to alert users when matching listings appear.

EDUCATION

B.Sc. in Data Science – Second Upper

Bachelor of Science in Data Science • Cardiff Metropolitan University • Wales, UK • 2026

HND in Software Engineering – Merit

Higher National Diploma in Computing & Software Engineering • Cardiff Metropolitan University • Wales, UK • 2024

GCE A/L

Bandaranayake Collage – Gampaha • 2022

CERTIFICATIONS

IBM – Machine Learning with Python

Coursera 2026 • [Verify Here](#)

Microsoft Certified Fabric Data Engineer Associate DP700 – In Progress

Expected November 2026

EXTRA CURRICULAR ACTIVITIES

Black Belt - Sri Lanka Karate Do Showakan – 1st Dan	2020
South Asian Karate Championship – Karate Demonstration	2017
Kensho International Karate Championship – Male Kata 3,2,1 Kyu Under 15 Yrs – 3rd Place	2017
Showakan All Island Karate Championship – Male Kumite 9,8 Kyu 13-12 Yrs – 1st Place	2016
Showakan Annual Karate Championship – Male Kata 9,8 Kyu 13-12 Yrs – 1st Place	2016
Western Province Shotokan Karate Championship – Male Kata 10,9,8,7 Kyu Under 14 Yrs – Best Eight	2016
Active Member of Arts Society – Bandaranayake Collage, Gampaha	2020 – 2022
